Miss Susan S. Tower
Station WCSR
Northampton, Massachusetts

Dear Miss Tower:

We have a report from our Field Representative who recently visited Boston. He informs us that your college station WCSR is apparently carrying commercial advertising and therefore must be receiving "revenue from the sale of station time".

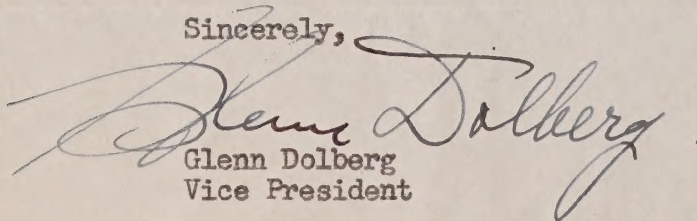

The type of license in effect between BMI and your station is for non-commercial operation and as such calls for the token payment of \$1.00 per year.

You will note in the copy of the BMI contract that these stipulations are clearly stated in the rider attached to the contract.

The point is, if you are selling time, then the BMI form of non-commercial license should be changed and your station should pay regular commercial fees.

Would you please let us hear from you.

Sincerely,

Glenn Dolberg
Vice President
